Contemporary Anarchist Studies promotes the study of anarchism as a framework for understanding and acting on the most pressing problems of our times. The series publishes cutting-edge, socially engaged scholarship from around the world – bridging theory and practice, academic rigor and the insights of contemporary activism.

The topical scope of the series encompasses anarchist history and theory broadly construed; individual anarchist thinkers; anarchist informed analysis of current issues and institutions; and anarchist or anarchist-inspired movements and practices. Contributions informed by anti-capitalist, feminist, ecological, indigenous and non-Western or Global South anarchist perspectives are particularly welcome. So, too, are manuscripts that promise to illuminate the relationships between the personal and the political aspects of transformative social change, local and global problems, and anarchism and other movements and ideologies. Above all, we wish to publish books that will help activist scholars and scholar activists think about how to challenge and build real alternatives to existing structures of oppression and injustice.
